LOGISTICS COORDINATOR

Location: Cobalt Refinery, Temiskaming Shores, Ontario

Reference No: 2024-029

Position Type: Full-Time

Rate of Pay: Salary, Commensurate with experience and qualifications

ABOUT ELECTRA BATTERY MATERIALS

Electra is planning to build North America's only fully integrated, localized and environmentally sustainable battery materials complex. Thus far, in 2024 Electra received \$10 million in Federal government funding and \$20 million from the U.S. Department of Defense to provide support toward the development of its battery materials complex. Leveraging the company's own mining assets and business partners, the Electra Battery Materials Park will host a cobalt sulfate plant with plans to build a nickel sulfate plant and a large-scale lithium-ion battery recycling facility. Electra's focus will be to supply the North American Electric Vehicle market with battery materials to support the manufacturing of lithium-ion batteries within North America. Electra Battery Materials is an integral part of the North American battery supply chain, providing low-carbon, sustainable and traceable raw materials for the region's fast growing electric vehicle industry.

RESPONSIBILITIES

Below is a list of primary duties and responsibilities for the Logistics Coordinator at the Cobalt Refinery:

- Oversee, coordinate and monitor all supply chain operations;
- Oversee, coordinate and monitor over \$500 million dollars per annum worth of supply chain products and commodities;
- Organize, review and make recommendations to management on logistics contracts;
- Analyze and optimize logistical procedures;
- Coordinate and manage transportation, storage, and inventory;
- Manage and coordinate all on site logistics, including feed storage and handling, product and reagent storage and handling as well as on site traffic plans;
- Issue purchase orders and follow up with suppliers as directed;
- Gain information on appropriate logistical software systems, make recommendation to management on selected software, implement its use in the plant
- Supervise orders and arrange stocking of raw materials and equipment to ensure needs are met;
- Organize warehouses on site so that they comply with all material handling regulations and are kept in compliance;
- Manage correspondence with suppliers, retailers and customers to achieve profitable deals and mutual satisfaction;
- Facilitate the monitoring of incoming and outgoing freight to ensure accuracy while following the proper procedures;
- Responsible for maintaining accounts through data management and reporting;
- Maintain logs and records of stock and executed orders;
- Participate in defining and implementing new logistics processes;
- Observe and improve internal processes as required; and,
- Other duties as assigned by management.

QUALIFICATIONS

- A Bachelor's Degree in Logistics, Business Analytics, or related field preferred;
- Minimum 5+ years of experience in logistics management;
- Past work experience in process plants an asset;
- Must be local or willing to relocate to Temiskaming Shores, Ontario;
- Working knowledge of legal regulations and requirements;
- Proven ability to work in a team environment demonstrating excellent communication skills to subordinates, peer group and management;
